

## Natural Health Products - Product and Site Licenses

- Course Objective:** The program will consist of lectures, recent developments from Health Canada, step-by-step guidance for completing the applications, and case studies.
- Course Description:** This course is designed to provide hands-on training in the preparation of the product licence and site licence applications for Natural Health Products. This one-day course will focus on the information needed to complete these applications, in order to successfully register these products in Canada.
- Course Outline:**
- Introduction: The scope of naturopathic medicine and the growth of NHPs
  - The definition of NHPs – what products are included and what products are excluded
  - Main components of the NHP regulations
  - Product Licence (PL) application
    - Components of the form
    - Safety and efficacy Summary Report
    - Quality Summary Report
    - Animal tissue forms
    - Labelling requirements
  - Site Licence (SL) application
    - Components of the form
    - The QA Report
    - Attestation
  - Case Studies
