

## **GMP Bootcamp for Natural Health Products**

**Course Objective:**

**Course Description:** How to get your company GMP "Fit" and compliant to the new Health Canada regulations. This course provides a basic introduction to Good Manufacturing Practices for NHPs and presents the new NHP regulations in the context of "the 4-Ps". Traditionally complex regulations from the pharma industry are presented simply and concisely as needed for the NHP industry. Participants will receive a Certificate of Achievement for Course Completion.

**Course Outline:**
